

Backing Up/Importing your Worlds on EaglerCraft X

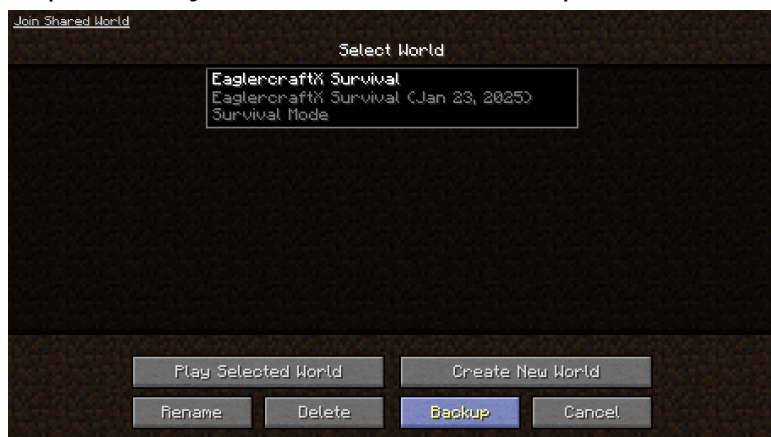

Backing Up

Always moving between computers like I am? Save your worlds and back them up like I do!

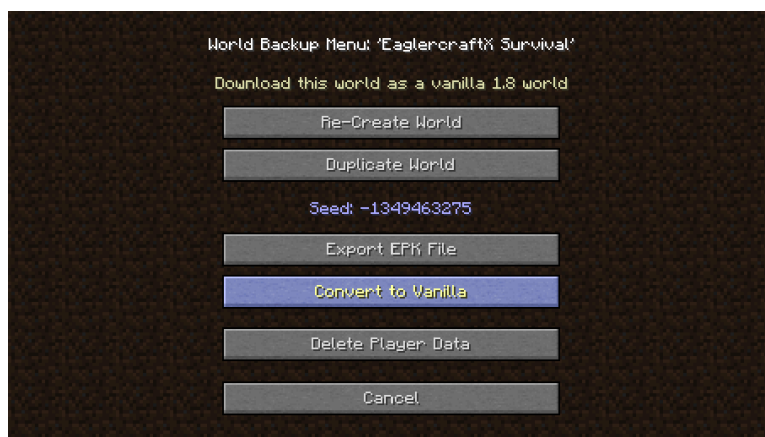

Step 1: Go into Singleplayer

Step 2: Select your World and Click "Backup"

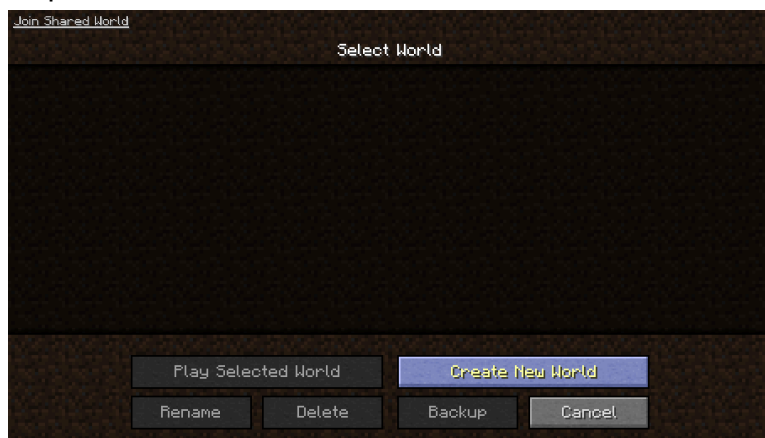

Step 3: Choose how to save your World (EPK recommended!)

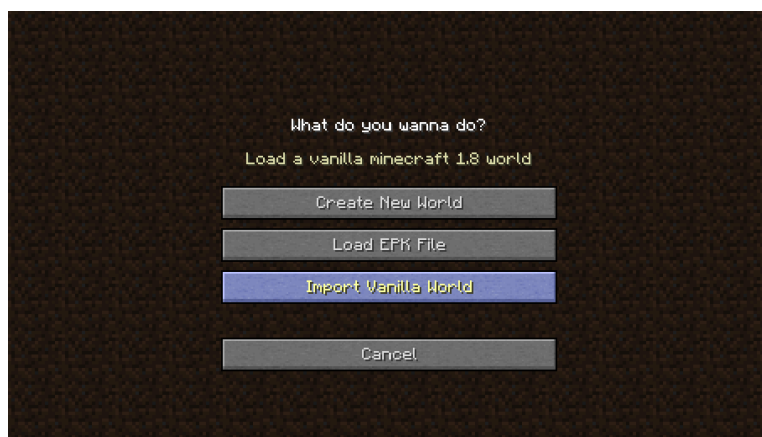

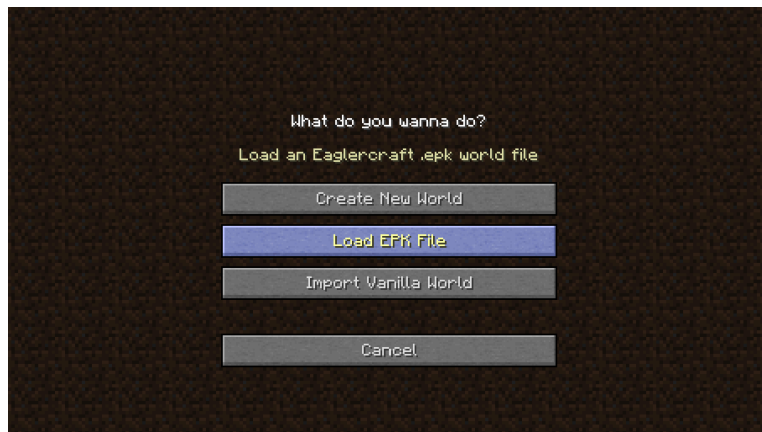

Importing

Now that you have your World saved, you can import it on a separate device.

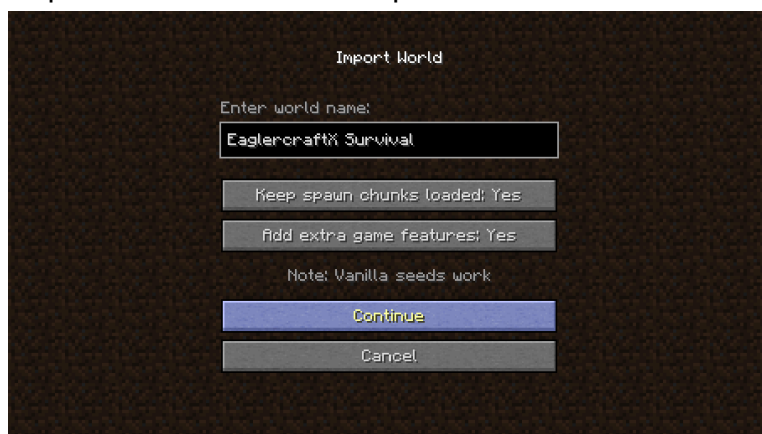

Step 1: Click "Create New World"

Step 2: Choose the format to import from (EPK recommended!)

Step 3: Choose which world options to start with and select "Continue"

You're done! Your world should be on the list!
